

## PURE Programs Winterization Plan Questionnaire

1. Is there an automatic water shut off device (AWSO) connected to central station burglar and fire alarms?
2. Is home unoccupied for 2+ months a year?
3. Is heat maintained (heat throughout home is kept over 55 degrees F) while home is unoccupied?
  - What is the fuel source?
  - Is there a contract of automatic fuel refills if other than municipal gas?
4. Is a licensed plumber contracted to winterize home?
  - Winterize meaning draining water supply lines and appliances, using anti-freeze, and testing lines before turning water back on
5. Is there a caretaker servicing home when unoccupied?
  - How frequently is caretaker looking at home?
